CALL FOR PARTICIPATION
March 2019

We are pleased to announce the 2nd annual Symposium on Applications of Contextual Integrity, taking place August 19-20, 2019, on the UC Berkeley campus. The aim of the symposium is to foster interaction among diverse communities of research and practice using contextual integrity to reason about privacy, and to design and evaluate, craft regulation, and generate formal logics for privacy. We will accept any of the following submission types:

• A 4-page position paper on work in progress (references not included in the page limit)

• An extended abstract (1-2 pages) summarizing published or mature work. Please include a short “works cited” section situating your work within it and clarifying its contribution. If your topic is entirely novel or interdisciplinary, please indicate that as well. If your abstract is accepted, you will have the option of posting the longer paper on the symposium website.

• A 1-page description of an interesting use case to be discussed at the symposium.

The workshop will not publish formal (i.e. archival) proceedings. Instead, the workshop aims to foster discussion and feedback to improve work-in-progress for subsequent publication elsewhere. With author’s permission, accepted submissions will be posted on the website, but will not be considered archival publications. Papers should be formatted using the 2019 ACM Master Article Template. For LaTeX users, choose format=sigconf.

Submissions will be peer-reviewed by the workshop’s Program Committee and accepted based on relevance and potential to contribute to workshop discussions and goals. We encourage submissions from diverse disciplinary sources, methods, and contributions, including:

• Empirical studies (qualitative, quantitative, experimental)
• Legal, philosophical, ethical, and policy analysis
• System design and/or implementations
• Combinations of the above

Submit papers through the submission site.

Participation without submission: If you’re interested in attending without a submission, please complete this form. We will send a confirmation upon review.

IMPORTANT DATES
Submissions Due: June 10
Notifications: June 25
Date of Symposium: August 19 and 20

SYMPOSIUM CHAIRS:
Serge Egelman (University of California, Berkeley)
Helen Nissenbaum (Cornell Tech)
Yan Shvartzshnaider (NYU and Princeton University)
