Symposium on Applications of Contextual Integrity

Call for Participation

We are pleased to announce the 3rd annual Symposium on Applications of Contextual Integrity, taking place September 21-22, 2020 at University of Chicago. The aim of the symposium is to foster interaction among diverse communities of research and practice, from academia, policy, and industry, interested in using contextual integrity as a way to reason about privacy, and to design and evaluate, craft regulation, and generate formal logics for privacy.

We will accept any of the following submission types:

- A 4-page position paper on work in progress (references not included in the page limit)
- An extended abstract (1-2 pages) summarizing published or mature work. Please include a short “works cited” section situating your work within it and clarifying its contribution. If your topic is entirely novel or interdisciplinary, please indicate that as well. If your abstract is accepted, you will have the option of posting the longer paper on the symposium website.
- A 1-page description of an interesting use case to be discussed at the symposium.
- A 1-page description of real-world case study from industry or policy.

The workshop will not publish formal (i.e. archival) proceedings. Instead, the workshop aims to foster discussion and feedback to improve work-in-progress for subsequent publication elsewhere. With author’s permission, accepted submissions will be posted on the website, but will not be considered archival publications. Papers should be formatted using the 2019 ACM Master Article Template. For LaTeX users, choose format=sigconf.

Submissions will be peer-reviewed by the workshop’s Program Committee and accepted based on relevance and potential to contribute to workshop discussions and goals. We encourage submissions from diverse disciplinary sources, methods, and contributions, including:

- Empirical studies (qualitative, quantitative, experimental)
- Legal, philosophical, ethical, and policy analysis
- System design and/or implementations
- Combinations of the above

Participation without submission: If you’re interested in attending without a submission, please complete this form. We will send a confirmation upon review.

SYMPOSIUM CHAIRS:
Marshini Chetty (University of Chicago)
Helen Nissenbaum (Cornell Tech)
Yan Shvartzshnaider (NYU & Princeton)
Blase Ur (University of Chicago)

IMPORTANT DATES
Register an intent/abstract: June 15, 2020
Submissions Due: June 22, 2020
Notifications: July 10, 2020
Symposium dates: Sep 21-22, 2020
